The symbol expresses connected continental movement

An interwoven C

A continuous ribbon creates a distinctive C for continental reach, connected operations and long-term partnership.

Navy and teal

Navy provides stability; teal carries visible commerce across devices, kiosks and software.

Amber activation

The small accent marks the moment technology becomes a transaction.

Keep the lockup disciplined, legible and consistent

Clear space

Keep at least one amber-accent height around every side of the lockup.

Minimum size

Full lockup: 140 px digital / 32 mm print
Symbol only: 24 px digital / 8 mm print

Do not stretch, recolor, rotate, add effects or separate the amber accent.

Color signals trust, movement and human warmth

Recommended balance

55% navy 25% teal 10% amber 10% white

Typography stays technical without feeling cold

Aptos Display Semibold

Headlines should be short, decisive and sentence case.

Aptos Regular

Use for body copy, proposals, email and product explanations. Favor plain language and generous spacing.

Use Courier New only for device IDs, serials and technical code.
